# Gracen D. Garceau

149 Bluffside Circle, Savannah, GA 31404 | 912-963-7195 | ggarceau3@gatech.edu | US Citizen

## Objective

Driven electrical engineering student experienced in microcontroller programing and PCB design from leading competitive robotics subteam looking to add technical aptitude and innovative problem solving to hardware and logistics challenges. Seeking an internship in electrical engineering hardware starting May 2027.

## Education

**Georgia Institute of Technology | Atlanta, GA** *August 2026 – Present*
Bachelor of Science in Electrical Engineering Expected Graduation, May 2030

**Savannah Country Day School | Savannah, Ga** *August 2022 – May 2026*
Cum Laude GPA 94.94

## Skills

**Programming:** Python (novice), C++, G Code, IDE
**Software:** SolidWorks, GitHub, Fusion 360, Excel
**Professional Organizations:** Georgia Tech Society of Women Engineers, Women of Electrical and Computational Engineering
**Communication:** Design proposals, Public speaking (large and small audiences), Videography, Marketing
**Languages:** French (conversational), English (fluent)

## Experience

**Adept Engineering and Fabrication | Savannah, Ga** *May – August 2026*
***Student Intern***
*CNC machining company that produces custom fabricated parts for airplanes, industrial kitchens, and firearm carrying racks.*

- Developed and fabricated all aspects of an industrial oyster shucker in one summer. Grew sales and social media by 450% and 1000+%.

**TEDxSavannah | Savannah, Ga** *May 2026*
***TEDx Speaker***
*Professional speaking event where individuals give 10-12 minute long memorized speeches on specific topics.*

- Spoke about social media, the true toll that my generation is facing, and how to get offline in front of 300+ people.

**Georgia Governor Honors program | Statesboro, Ga** *June– July 2025*
***Finalist & Attendee***
*Month long engineering intensive, <15% Acceptance rate*

- Built 4 projects: electronically water pump system, water turbidity calculated from 30,000+ data points, mock scaled dam with an adjustable flow rate, a water jetted modular emergency bridge with full cost projections.

**Science Olympiad | Savannah, Ga** *August 2025– April 2026*
***Engineering Build Lead***

- *Science competition where individuals compete in different events including tests and engineering builds within guidelines.*

Designed and fabricated hardware and software for electric vehicle and robot tours. Committed 10+ hrs a week, placed 1st at the regional robot tour and 4th electric vehicle. Placed 1st at state in electric vehicle.

## Projects

**Robot Tour** *Semester 2026*
***Hardware Lead***

- Completed 4 versions in 6 months with 3 different shield stacks. Coded in C++ utilizing boost converters, an arduino board, a motor shield, imu & gyroscope, buttons, and PID controls together to navigate a grid and score points.

**Bridge Breaker** *Semester 2025*
***Hardware Lead***

- Calibrated a linear actuator with load cell to crush constructed bridges with a physical interactive interface for users to cycle though start, stop, and reset before reading off the crush force.

## Leadership

**SCDS MakerSpace Managers | Founder & President** *August 2024– May 2026*

- Founded and led a hands-on peer-to-peer engineering education program teaching 50+ high school students.

**Second Harvest Teen Board Council | Inaugural Student Leader** *September 2023– May 2026*

- Organized service initiatives including Stamp Out Hunger, collecting 40,000+ lbs of food and packing 1,000+ breakfasts.
